

BCCC Men's and Women's Basketball Teams Crowned Maryland Junior College Athletic Conference Champions

The Baltimore City Community College men's and women's basketball teams—emphatically demonstrating what men's head coach Terry Maczko said, that passion and “bringing the whole person to the game” is what makes all the difference—have simultaneously captured respective 2010 Maryland Junior College Athletic Conference (MD JUCO) Championships.

Message from the President

College is more than Books

Welcome to the spring semester at Baltimore City Community College (BCCC). I am delighted that you have chosen to begin or continue your higher education at BCCC where your success is our priority.

As you forge ahead in your current studies, please remember that your college experience isn't all books, labs and lectures; there are ample learning experiences *outside* of the classroom. At BCCC, you can avail yourself of countless possibilities through active participation in a student club or organization. What a great way to connect with others who share your interests; to gain leadership experience; to participate in college projects or special events; and, to expand your knowledge of other countries and cultures.

BCCC student organizations run the gamut...from curriculum-based groups like the Accounting Club, Computer Technology Club and Engineering Club to self-help and awareness organizations like Positive Men and Students Organized for Disability Awareness (SODA). If you like to *represent*, consider joining our

Student Ambassadors who welcome dignitaries and other visitors to special college events such as the recent Life Sciences Institute ribbon-cutting. If you would prefer to learn more about and have greater input into how the College operates and which student activities to develop, may I suggest the Student Governance Board. Perhaps you have a talent you'd like to share; then, why not join the BCCC Choir where you can entertain people both at the College and in the community.

All of these organizations and many more will provide you numerous opportunities to find new venues for learning, personal growth and enjoyment. I encourage you to take a look at the nearly 30 entries on the current list of BCCC Clubs and Organizations (see adjacent roster). It includes contact information for each group's advisor. Choose a club that will enhance your academic and social life at Baltimore City Community College. You won't regret it!

Sincerely,

Carolane Williams, Ph.D.
BCCC President

Positive Men's Movement

In the Fall 2009 semester, the support group component of Positive Men's Movement was reinstated with 12-15 BCCC male students. The group met regularly on Wednesdays at 12 noon in the game-room of the main building. The group successfully hosted a Sexual Health Awareness program in partnership with BCCC Health & Wellness Center, Baltimore City Health Department and Total Health Care. About 60 students participated

in the program and received healthcare related pamphlets and other handouts. During the information session 20-25 students were engaged in discussions about STDs, substance abuse and other information that supports healthy sexual habits. Positive Men's Movement is excited about improving its recruitment efforts and planning other activities for the Spring 2010 semester.

Vice President of Student Affairs Message

Student Success Begins With Getting Involved

It is spring 2010, success is in bloom and it is my pleasure to welcome new and returning students to Baltimore City Community College, where we are "Changing Lives and Building Communities". This new year brings new opportunities for success and I encourage you to get involved, get engaged and seize success through the many programs, services and activities available to propel you to the next level.

Many students are unaware of the strong correlation between college involvement, success and retention and of the importance that both academic and social integration have to learning and to their

overall success and development. Involvement can take many forms, such as, establishing and joining clubs or organizations, working on campus or even attending activities and events. Involvement and engagement can also be achieved through ongoing and positive interaction with faculty and staff, as well as, through using college resources like tutoring, advising, career and employment development and other programs and services available to you at Baltimore City Community College.

The importance of involvement at college to success is best summed up by Vincent Tinto (1975), who defined social integration as occurring primarily through informal peer group associations (connecting with your friends), semi-formal extra-curricular activities (forming or joining a club or organization) and interaction with faculty and administrative personnel within the college (connecting with your teachers and the staff at BCCC) According to Tinto, "Successful encounters in these areas result in various degrees of social communication, friendship support, faculty support, and college affiliation. Each of which can be viewed as important social rewards that become part of a person's generalized evaluation of the costs and benefits of college attendance".

For some students, thoughts of getting involved also bring with it feelings of anxiety and or uncertainty. If this is true for you, the Student Affairs Division is here to support you during these times. For more information and support contact the Dean of Student Development at (410) 462-8355.

I invite your full participation in the life of Baltimore City Community College, a learning community that appreciates and celebrates the voice of students. As a way of better connecting with our student body, we will be incorporating the use of several social networking sites such as Facebook, MYSPACE and Twitter. Stay tuned for more on this exciting initiative. For any additional questions or concerns, feel free to contact my office directly at (410) 462-8301 or email me at studentaffairs@bccc.edu

Here's to you and success and making the connection. Remember, Student Success Begins With Getting Involved. Have an amazing semester.

Alicia B. Harvey-Smith

Dr. Alicia B. Harvey-Smith
Vice President for Student Affairs

COLLEGE RALLIES WITH PANTHER PRIDE!

BCCC Students Interested in Careers in Science, Technology, Engineering, and Mathematics

BCCC in partnership with Towson University offers two programs that benefit BCCC students. The National Institute of Health (NIH) funds one program and the other is provided through a National Science Foundation (NSF) grant. Collectively, we call these programs STEM/Bridges. The BCCC programs are designed for BCCC students who are interested in careers in science, engineering, technology, and mathematics. The programs offer BCCC scholarships, summer internships, field trips, faculty mentors, and scholarships to Towson University. During the fall semester, usually, mid-October, the STEM faculty, Drs. Settel and Dabirsiaghi along with Professor Gleger hold a STEM/Bridges Luncheon to introduce prospective students to the various STEM opportunities. This past fall 88 students attended this informative orientation. Students chosen for the programs are called STEM Scholars. Students take seminars in preparation for the transition to the university. Selected students could participate in a summer paid-internship at Towson, working in a research lab. At the end of the research internship, students give poster presentations to share their

research with other students and faculty. During the summer of 2009, eight BCCC students worked in research labs at Towson University.

Spring 2010 will be exciting for the STEM/Bridges students as they will participate, along with their mentor Professor Marianna Gleger in the 24th Annual Black Engineer of the Year (BEYA) Award STEM Global Competitiveness Conference. For more than two decades, the BEYA has attracted top professionals and students from every part of the nation and every field of science, engineering, and technology.

Last year was the first time, BCCC STEM students and members of the Engineering and Environmental clubs had the incredible opportunity to meet face-to-face with Fortune 500 corporations and government employers. BCCC students found career, internship, and networking opportunities with companies such as the Aerospace Corporation, Air Force Research Lab, BAE Systems, Lockheed Martin, IBM, the U.S. Department of Labor, the U.S. Coast Guard, Exelon, MITRE, Northrop Grumman, the Boeing Company, and many, many others. Because

students were prepared well in advance for the conference, by writing resumes and cover letters, along with preparatory workshops on appropriate dress and interview skills, possible internships were available for a large number of Baltimore City Community College students.

Dahlia Lindsey, Charlotte Randall, Wanda Massey, and Dr. Dabirsiaghi on a field trip to visit a green roof project in Washington, DC.

BCCC students and Professor Gleger at the BEYA Conference.

UMBioPark Location for ELI's "Fast-track to Healthcare Careers" Pilot Program!

In Spring 2010 the English Language Institute (ELI) will pilot a new dual enrollment study program that allows developmental ESL students accelerated entry into Nursing and Allied Health academic majors. Called "ELI Fast-track to Health Care Careers", it permits ELI students, for the first time, to enroll in the two mandatory ELI 82 courses, ELI 82W (Reading and Writing) and ELI 82G (Grammar) concurrently with BIO 102 Principles of Biology. By combining nine credit hours of ELI coursework with four-credit BIO 102, students will get a head-start completing science pre-program courses for BCCC's Nursing and Allied Health programs. In addition, students will complete PRE-100, earning a fifth academic credit. To promote academic success, students will meet regularly with an embedded Biology tutor who will attend class with them. This initiative, offered mornings only at the University of Maryland BioPark, results from close collaboration among BCED, Academic, and Student Affairs Divisions.

So you think there's no room for you in Bio Science? **Well, Think Again!**

BioPark Ribboncutting photo: (Left to right) BCCC President Dr. Carolane Williams; Dr. Michelle Bondima, Dean of Business, Health, Sciences and Mathematics; Dr. Kathleen Kennedy Norris, Coordinator of Biotechnology and Director of the BCCC Life Sciences Institute; State Sen. Verna L. Jones Rodwell (D-44, Baltimore City); and U.S. Sen. Barbara A. Mikulski (D-Md.).

As the BCCC Life Sciences Institute (LSI) at the University of Maryland BioPark begins its second semester, nearly 350 students are taking at least one course on-site. Developed to be a gateway to high-demand career fields, LSI offers students a unique learning environment.

Lab and classroom facilities are brand new and state-of-the art. World-class university research-

ers and private industry scientists, all Biopark neighbors, are just an elevator ride away. More and more LSI students are taking advantage of that close proximity by pursuing—and landing--onsite jobs and internships.

The only LSI admission requirements are a high school diploma (or GED) and a desire to learn. Students can take the introductory biotechnology course along with

their developmental coursework. That makes the Life Sciences Institute truly worth serious consideration—even for a student who may not have considered science as a career path before. LSI is an open and excellent venue for pursuing degrees or certificates in biotechnology, environmental science or the sciences needed to transfer to a four-year institution.

“Many of our students enter the workforce and continue their education part-time with their employer’s financial support,” adds Dr. Kathleen Kennedy Norris, LSI director and coordinator of the BCCC biotechnology program.

And now word is spreading about the opportunities made possible by this latest innovation in STEM (science, technology, engineering and math) workforce training: Baltimore City Community College has recently won national recognition for its partnership with the University of Maryland to create the Life Sciences Institute. BCCC was one of only ten finalists for this year’s prestigious Bellwether award for community college excellence in Workforce Development.

For more information, call Kathleen Kennedy Norris, Ph.D., at 410-637-3805.

Dr. Henrietta Hestick Annual Parenting Fair

Baltimore City Community College is honoring Dr. Henrietta Hestick by establishing an Annual Parenting Fair in her name. Dr. Hestick established the first Parenting Fair in November of 2008.

The Dr. Henrietta Hestick Annual Parenting Fair is scheduled for Saturday, April 17, 2010 from 10am-2pm. Dr. David McBride from Pennsylvania State University will kick off the fair, followed by workshops on Behavior Modification and Positive Discipline; Nutrition; Being a Single Parent; Parenting and Finances; Fatherhood; and others. Additionally, there will be exhibitors from a variety of organizations who will provide information related to parenting.

For further information contact: Dr. Karen Shallenberger, kshallenberger@bccc.edu, 410 462-7664.

BCCC introduces new Athletic Director **Tara Owens**

Baltimore City Community College, and the Student Affairs Division are proud to introduce our New Athletic Director, Ms. Tara Owens. Please welcome her to the Baltimore City Community College family, as she commits to a new level of excellence in athletic administration. Ms. Owens comes to us with an exten-

sive background, both educationally and experientially in administration, physical education, coaching and teaching in the K-12 and college arenas.

Most recently, she served as the Special Projects Administrator and Head Coach for the Women's Basketball Team at Norfolk State University. Previously she served as Instructor of Health & Sports Management and Head Coach for Women's Basketball at Elizabeth State University, as well as, Interim Director of Athletics, Associate Director of Athletics, Program Administrator and Head Coach for Women's Basketball at Cheyney University.

Ms. Owens holds a B.S. degree in Health & Physical Education from Virginia State University and a Master's degree in Education with a concentration in Administration and Supervision from Cheyney University.

We expect that Ms. Owens will do an outstanding job and have every confidence that she will help us to take our athletic program to the next level by building on the work of the past, repositioning us to expand our athletics department and forging a new future as we continue to "Raise The Standard" and showcase Panther pride. Please stop by to welcome Ms. Owens. Her office is located in PE 114 and she can also be reached at ext. 8325

BCCC places two hoopsters on NJCAA Pre-Season All-American teams

Sophomores Charda Lomax and John Williams selected as NJCAA All-Americans.

Baltimore City Community College has been honored with the selection of two student athletes, John Williams and Charda Lomax to the NJCAA Pre-Season Basketball All-American Teams.

John Williams, a 6-5, 200 pound forward, was selected to the third team. Williams was All-JUCO second team in 2008-09 season. He is a sophomore from Baltimore, MD and Mergenthaler Vocational Technical High School, majoring in General Studies. Last season, he averaged 16 points,

eight rebounds, 1.5 assists, one steal and two blocked shots per game.

John has the unique ability to score in the paint as well as the perimeter and is a tough matchup for opposing teams. He plays both ends of the floor and is a strong defender and rebounder. An excellent leader, John is a two year team captain for the Panthers and is being heavily recruited as he enters his sophomore year.

Charda Lomax, a shooting guard,

was named a 2nd Team Pre-Season All-American. During the 2008-09 season, Charda averaged 16 points, six rebounds, four steals and three assists.

Charda works just as hard in the classroom as she does on the basketball court. In addition to her strong academics, she has been team captain both seasons and a leader on and off the court. One of the more mature players on the team, she has aspirations to play overseas.

Congratulations to John and Charda!

Student Affairs Reorganization & Repositioning

On November 1, 2009, Dr. Alicia B. Harvey-Smith, Vice President for Student Affairs, implemented a division-wide reorganization and repositioning of the Student Affairs division. The purpose of the reorganization is to provide superior customer service & excellence to students, faculty, and staff. As part of the reorganization/repositioning an Office of Student Judicial Affairs, Office of First Year Experience/Honors, along with Transfer, Career and Student Life were created. Additionally, some departments were realigned under the divisional Dean's to better service our constituents.

Career Development & Job Placement *Gearing-Up for Events*

The Office of Career Development & Job Placement will be hosting various Employer Visibility Events on the Liberty Campus of Baltimore City Community College for the Spring 2010 Semester.

Employer Visibility

Employer Visibility Day will begin on Feb 16, 2010 and last until March 25, 2010. EMC Marketing, a prepaid legal service, will be on campus recruiting for Marketing Interns and Sales Associates. They will be on campus February 25, 2010. The U.S. Census will also host an informational session sometime this semester. We will be posting more information on these events at a later date.

Major Decision Day

April 14, 2010 will be Major Decision Day. During this event, students who have not yet declared a major will have a chance to meet with various Academic Departments to discuss choosing a major. There will also be a SIGI3 Assessment Demonstration to assist students in choosing a major.

Career Week

Career Week will take place May 3, 2010 to May 6, 2010. During this time, there will be various events taking place.

Below is a list of events that will take place:

May 3 – SIGI3 Assessment – This is where the students take their major and link it to a career or occupation.

May 4 – Work Trends - A representative will come to speak to students about trends and developments in the workplace that can affect job and career development.

May 5 – Career Workshops - This will cover the Art of Interviewing, Cover Letter/Resume Writing and Dress For Success Techniques.

May 6 – Career Day – Will feature various employers in the Mini Conference Center speaking with students on career opportunities.

There will be more information advertised about these events at a later date. We plan to advertise companies' names on Blackboard and the Plasma TVs.

Employers frequently request that our students meet with them to discuss internships and employment opportunity with their organization.

Employers that will be featured this semester at Career Day are:

- U. S. Census
- State Farm
- Maryland Transportation Authority Police
- Mayor's Office of Employment Development HR
- Environmental Systems Products
- FedEx Ground
- Montgomery County Department of Police
- Northwest Hospital
- Mercy Medical Center
- EMC Marketing

Pending Employers who agree to participate in our Employer Visibility Day or Career Day are:

- Great Oak Lending Partners
- Department of Public Safety and Correctional Services
- Baltimore County Employees' Federal Credit Union
- Baltimore Country Club
- Bon Secours Baltimore Health System
- Mile One Automotive
- Baltimore County
- SECU Credit Union
- Athelas Institute, Inc
- Baltimore County Police Department
- CVS Caremark
- Baltimore Today For Tomorrow
- Comcast
- Hilton Baltimore
- FBI
- University of Maryland Hospital
- Marriott Hotel
- Baltimore County Fire Dept. (EMT)
- J. Vinton Schafer & Sons, Inc.
- Maryland Park Service
- AirTran Airways

**Visit the Career Development & Job Placement Center
located in the Main Building, Room 110**

Civility Matters @BCCC

Civility is an institutional imperative at Baltimore City Community College. We are committed to ensuring a safe, pleasant workplace and learning environment for students, faculty, staff and visitors.

Civility at Baltimore City Community College is defined as behavior that demonstrates respect for the rights, needs, and feelings of others. Furthermore, civility

is acting in a courteous and polite manner to other people through behavior, attitude and words.

All members of the BCCC community should strive to create a positive learning environment centered on behavior that is characterized by the standards of conduct that we all value.

**Tolerance and respect for others
is expected of all members of the
College community.**

Concerns about the civil behavior of BCCC faculty, staff and students should be reported to :

BCCC Compliance Hotline

1.800.849.9281 or via the website

<http://www.mycompliancereport.com>
the access ID is "BCL".

Go Panthers....Go Panthers....Go Panthers....

BCCC Haitian Relief Effort

BCCC Haitian Relief Effort was launched on Wednesday, February 3, 2010, in the Student Affairs Lobby. The primary purpose is raising much-needed funds, which will be channeled to Haiti through the American Red Cross. No contribu-

tion is too small when it is given from the heart. An account has been established and contributions can be made at the Cashier's window directly to the "Baltimore City Community College Haitian Relief Effort."

Remaining true to the college's tag line, "Changing Lives and Building Communities", BCCC is poised to reach out to the citizens of Haiti through this initiative and assist with saving lives and rebuilding their community.

Cheers of Support!

Office Administration Program — *Alive and Growing*

The Office Administration Program is alive and looking forward to doing well at Baltimore City Community College. One of the oldest programs in the Business, Management and Technology Department, OFAD offers a variety of degree and certificate options designed to provide students with experiences, knowledge and skills that will enable new students and experienced administrative assistants and other office support personnel to be successful as 21st century office workers. The Office

Administration degree programs are accredited by the Association of Collegiate Business Schools and Programs, ACBSP, assuring that program offerings meet nationally approved standards.

Whether choosing the Executive, Medical or Legal Administrative Assistant field, the majority of OFAD students do not desire to transfer to a four-year institution. Students are usually interested in gaining enough skills and knowledge to acquire a job as soon as pos-

sible. Some are interested in updating their skills to secure a promotion.

Given the current economic situation, the OFAD program has seen a significant surge in enrollment. Many recent applicants are experienced out of work individuals, seeking skills that will afford them the opportunity to enter available office positions. The program offers Credit-by-Examination for many of our beginning courses, allowing students the opportunity to receive credit for work experience.

For additional information, please contact Cynthia Webb, Program Coordinator, at 410-462-7728 or via e-mail at cwebb@bccc.edu.

Saturday, April 10, 2010	1:00 - 2:00	Word for MLA Papers

Word for APA Papers

(Class limit: 15 people) a one-hour training session how to use Microsoft Word 2007 to format your paper in APA style. Topics include:

- Creating the cover sheet, setting margins, double spacing, headers, first line and hanging indents, and typing foreign words.

Wednesday, April 07, 2010	12:30 - 1:30	Word for APA Papers
Thursday, April 08, 2010	2:00 - 3:00	Word for APA Papers
Tuesday, April 20, 2010	1:00 - 2:00	Word for APA Papers

Health and Wellness Center Putting Prevention into Practice

One of the best kept secrets of Baltimore City Community College is the Health and Wellness Center which provides medical services for students. Our motto, "Putting prevention into practice," is what we feel will improve overall student health. The Center is located on the Liberty campus in Harper Hall, suite 114. Hours of operation are Monday through Friday from 8:30am-5:00pm. The Center is open year round to service student health needs; services are provided for BCCC students with valid identification.

Trained medical personnel are available to educate, treat medical injuries, and promote preventive health strategies; when necessary, referrals to outside disciplines are coordinated in the Center. The staff includes a full time Registered Nurse, a part-time Physician, and other licensed personnel. Prior to the start of each semester Allied health students are encouraged to visit the center and bring documentation needed to complete their immunization review; a prerequisite to participate in their chosen program. Athletes should make arrangements to have their physical completed prior to the start of team practice sessions.

Some of the services provided include:

- Annual Health Fairs
- Blood pressure screening
- Diabetes screening
- Immunization (vaccine administration)
- Monthly HIV testing
- Pregnancy test (urine)
- Custodial care of medical records
- Medical referrals
- First aid treatment
- Health seminars
- Flu vaccine
- Pamphlets on various health related Topics

For more information visit the College's website (www.bccc.edu) or call 410-462-8384 to contact the Liberty campus office.

Citizenship Program

Do you know any immigrant, refugee or asylee who is interested in becoming a U.S. citizen?

Baltimore City Community College offers free citizenship preparation classes in Baltimore and throughout Maryland. These classes help students prepare for the citizenship interview, as well as practice reading, writing and English pronunciation. Students must have been a permanent resident for at least 4 years in order to participate in citizenship classes.

Class times and locations:

Baltimore City Community College

Harbor Campus
